(To fill the roll no is compulsory)

INVERTIS UNIVERSITY BAREILLY

EVEN SEMESTER EXAMINATION - 2024-25

Diploma (CSE)

Semester: IV

SUBJECT CODE: DCS404

E-COMMERCE

Time: 03:00 Hrs. **Maximum Marks: 60**

NOTE: THE QUESTION PAPER CONTAINS THREE SECTIONS. ATTEMPT ALL THE SECTIONS.

SECTION – A

NOTE: Attempt all parts of the following questions. **(12 Marks)**

Q. 1. Answer the following questions: **(1×6 = 6 Marks)**

(i) Define E-Commerce.

(ii) List any four types of E-Commerce models.

(iii) State any two advantages of E-Commerce for businesses.

(iv) Mention the main components of an E-Commerce website.

(v) Name any two popular online payment methods.

(vi) Label the major steps in an online shopping process flowchart.

Q. 2. Answer the following questions: **(1×6 = 6 Marks)**

(i) Paraphrase the meaning of B2B E-Commerce in your own words.

(ii) Clarify how E-Commerce is different from Traditional Commerce.

(iii) Translate the working of an online payment gateway into a simple real-world example.

(iv) Represent the transaction process of an online purchase through a diagram.

(v) Clarify the role of encryption in E-Commerce security.

(vi) Paraphrase the steps involved in setting up an online store.

SECTION – B

NOTE:Attempt all questions. **(6×2×2 = 24 Marks)**

Q.3.(i)(a) Draw the architecture of a typical E-Commerce website and explain its main components.

OR

(**b)** Solve a case study to compute the total transaction cost for 100 online orders, if each transaction incurs ₹10 processing fee and 2% of the order value as commission.

(ii)(a) Relate the concept of supply chain management (SCM) to the working of an online retailer like Amazon.

OR

(b) Modify the traditional shopping model to a digital shopping experience by listing and explaining the changes in consumer behavior.

Q.4.(i)(a) Differentiate between B2B (Business to Business) and B2C (Business to Consumer) E-Commerce models with suitable examples.

OR

(**b)** Outline the steps involved in conducting a secure E-Commerce transaction.

(ii)(a) Select an appropriate payment system (Credit card, Net banking, UPI, etc.) for an online bookstore and **justify** your choice based on security and convenience factors.

OR

(**b)** Integrate the concepts of digital marketing into an E-Commerce website and explain their impact on sales growth.

SECTION – C

NOTE: Attempt all questions. **(12×2 = 24 Marks)**

Q.5.(a) Judge the reliability and effectiveness of electronic payment systems compared to cash-on-delivery (COD) methods in E-Commerce. Give real-world examples to support your answer.

OR

(b) Evaluate the security measures used in E-Commerce websites (such as SSL certificates, encryption, two-factor authentication) and their role in ensuring trust and safety for customers.

Q. 6.(a) Plan and design a complete blueprint for an E-Commerce website selling electronic gadgets. Your design should cover essential modules such as user registration, product listing, shopping cart, payment gateway integration, and order tracking.

OR

(b) Generate a conceptual model for an Online Grocery Delivery System. Classify and describe different entities (such as customers, products, orders, delivery agents) and create an Entity-Relationship (ER) diagram showing their relationships.
